DISCLAIMER STATEMENT for KME-ERI™ APPLICATION, CONSULTATION, AND EVALUATION

1. I am aware that the KME-ERI™ licensee is not a doctor or any other specialist in the field of medicine and that the licensee cannot claim to be anyone else other than a specialized user of the KME-ERI™ system.
2. I understand the difference between the practices of allopathic medicine of a non-medical practitioner/naturopath and a user of the KME-ERI™ system.
3. I am aware that consultation services provided by a KME-ERI™ licensee have no allopathic or medical background. The use of the KME-ERI™ system is only an alternative or an additional service to the care and healing practices acknowledged by the local administrations.
4. I am aware that the KME-ERI™ licensee exclusively offers services originating from a natural health system by using the ERI™ system for analysis and reduction of stress, environmental impacts, and imbalanced processes. I am also aware that these services are not recognized by the health authorities (that is, health insurance companies). I am aware that the CME specialists do not offer allopathic medication, chemical stimulation or preparations, operations or radiotherapies. I am aware that diseases will be neither diagnosed nor treated and that only my well-being, my physique and psyche will be measured.
5. I acknowledge that I have requested the consultation of a KME-ERI™ licensee in good faith and my own free will. I am aware that my personal data will be stored for further records and evaluations but will not be used by the ERI™ licensee at any time without my explicit permission. I am aware that the developer of the KME-ERI™ application cannot become liable for my usage of the KME-ERI™ system at any time.
6. I am aware that if services I wish for are not offered by the consultations of the KME-ERI™ licensee, I will have to seek elsewhere and a recommendation for such services cannot be provided. For this moment, I acknowledge that I have approached KME-ERI™ in search of consultancy, advice, opinions, feedback, views and/or programs within the scope of services provided by the KME-ERI™ licensee, particularly concerning my well-being and stress reduction. Therefore, I am aware that the KME-ERI™ licensee does not assume any liability and I herewith give my approval to execute all required evaluations and records.
